An education is almost indispensable now-a-days. The trained mind has an advantage over the untrained one, and the training should begin in youth.

### Conductor Becomes Millionaire Through Listening.

In the February American Magazine Hugh S. Fullerton tells of the curious ways that successful business men drove the opening wedge.

"One of my acquaintances is extremely rich," he said. "His biography, of course, tells all his story save the turning point. This is what he told me, and it illustrates the point, even though it is a trifle immoral from a business standpoint: He was a Pullman conductor on a line running into El Paso, Texas. He was making one hundred and fifty dollars a month and saving money. One night he was checking his tickets in a smoking compartment when two men lounging there began to unfold maps and talk of locations. The conductor listened half unconsciously, then listened with both ears while counting tickets. The next morning he went to a friend in a bank and said:

"I want to borrow thirty thousand dollars for sixty days."

"What security?"

"None, excepting this," he replied; "I want to buy an option on a certain piece of land. I'll turn over the option to you as security."

"He had to divulge part of his secret but he got the money. He secured options or purchased outright land in a certain section of El Paso upon which, he heard the two engineers say, the railroad was to build shops and car works. Inside of two weeks the bank canceled the thirty thousand dollar note, and paid him twenty-five thousand dollars additional for one half his options, and he was on the road to millions.

"He had seen the opening, carelessly left, and the turning point was passed."

### ARE YOU LOSING MONEY?

Or are you saving it by buying Ladd's Cream Bread? The average family (five persons) will consume a loaf of Bread per day, seven days a week. Here is what it will cost to make seven loaves of the same size and weight as our Cream Bread:

7 1/2 lbs. Flour at 4c ..... 30c  
1 1/2 quarts of milk ..... 11c  
Shortening ..... 3c  
Salt and incidentals ..... 1c  
Two yeast cakes ..... 4c  
Any woman's time should be worth at least 15c per hour on special work, or your maid's time will cost that and will take three hours a week—Labor cost ..... 45c

This makes no allowance for extra fuel or loaves spoiled in baking.

Seven loaves of our Cream Bread at three for 25c cost you 60c—less 5 per cent. at store, 57c.

Or, in other words, you get 8c above cost of raw material for labor, extra fuel, etc. Compare this with convenience of getting a fresh loaf of Bread whenever you want it.
